Education

B.E (Computer Engineering)

Shantilal Shah Engineering College

2019-2023

Ahmedabad

GSHSEB (Class XII / Science)

Saraswati Science School

2017-2019

Amreli

Experience

Software Engineer

Dvij Infotech LLP.

August 2023 – Present

Ahmedabad

Intern

WELTEC Institute

Feb 2023 – July 2023

Vadodara

Projects

dashboard.swipe.ai

- dashboard.swipe.ai is a merchant portal designed for e-commerce brands to manage package protection, track orders, handle claims, and analyze shipping performance—all in one place.
- Integrated RESTful APIs for real-time user interaction data, including swipe metrics, user preferences, and engagement trends, enhancing decision-making accuracy
- Implemented dynamic filters, pagination, and charts to allow admins to analyze large datasets quickly, improving user data accessibility and operational efficiency.

Smart Society Dashboard

- The Smart Society Dashboard is a centralized platform designed to streamline and digitize society and apartment management.
- It provides an intuitive interface for admins, residents, and committee members to manage everyday operations efficiently.

Gift Portal

- Gift Portal is a customized web platform built to simplify the process of sending, tracking, and managing corporate and personal gifts.
- It allows users and merchants to easily place orders, track delivery, and manage claims—all in a branded, user-friendly interface
